

What is Virtual Recording Studio

URL: <http://thenetstudio.com>

Virtual Recording Studio is a web site designed to connect Musicians, Songwriters, Producers, and Mixers to collaborate on new music.

How to use VRS

1. First step is sign up. it's free and this website is based on a what action's are down by it's members.
2. Enter the information required to complete sign up.
3. Get Started on My Projects
4. Then upload your personal track creation, then name it and boom your work is now on the World Wide Web
5. If you want to add your music genius to others who are less fortunate at making music then you then start helping by clicking on public Projects to listen to works created by other members and add your own material.
6. For questions just visit the web site's forum's to discuss any question, problems are just looking for someone to help crate a song
